BENWOOD POOL

In Monroe County Still the Feature in the Southwest.

IS BELIEVED TO BE A BIG POOL.

The Henry and Fisher Oil Companies to Engage in a Boundary Line Battle. Several Important Wells will Reach the Sand this Week-Development to the North- A Well on the Tyler County Side of the River-Oil Saits at Stenben ville.

The Fisher Oll Company's well on the Cehrs farm in the Benward (Monroe county) territory, which was drilled in last week, an account of which was given in the Intelligencer, is still holding up at about 500 barrels a day, and is conced-

en in the Incelligencer, is still holding up at about 500 barrels a day, and is conceded to be the best well that has been drillied in that territory so far. Since the well was drilled in it has failen off a little in production, but not enough to make the operators believe that the pool is only a small one, and that it will soon peter out, as has been the case with the majority of the other pools that have been drilled in in this section for the past two years. It is the general opinion now that the Benwood pool is a good one, and that it will be the largest southwestern pool opened up for several years. All of the wells that have been drilled in so far are holding up in production very nicely. There is a great deal of work being done in the Benwood pool at present and it is expected that within the next thirty days there will be in the nielgiborhood of twenty-five or thirty wells started. It is likely there will be quite a line fight between the Fisher and Henry Oil companies. When the pool was first opened up, the two companies mentioned made an agreement that neither one would drill within a location of the lines, but since that time one of the companies has located two wells right on the line, and is now drilling on them. This will have the effect of making the other company drill wells along the line in order to protect its interests, and the result will be very interesting. In addition to the number of wells stated above, which are expected to start in a very short time, there are at present in the neighborhood of zbout twenty wells ready to start and drilling. The Fisher oil company has

numer of wells stated above, which are expected to start in a very short time, there are at present in the neighborhood of about iwenty wells ready, it ostart and drilling. The Fisher oil company has the greater number of these wells while the Henry is next and individual producers are putting up a few rigs.

There are two or three wells drilling in this development which should reach the sand this week. One of these wells is the Fisher Oil Company's No. 2 on the Price farm, the farm on which the first well was drilled. This well has been expected in for several days, but so far it has not reached the pay. The Henry Oil Company's No. 3 on the Holtsclaw farm is also nearing the sand and should be in the pay not later than Saturday. In addition to the wells mentioned there are several others drilling near the sand and some of them will likely get into the pay the early part of next week. The next ten days will tell whether there is an extension of the Benwood pool to the north for any considerable distance.

There is very little being done in Tyler county at present, About the only well that is attracting any attention is that which was recently drilled in on the Robert Mayfield farm near onway, in the vicinity of Spragg & Company's big well. When this well was drilled in it developed a very heavy gas pressure and acted pretty much as the Spragg & Co. well. Since that time it has been showing a little more oil each day and it is believed now that it will be all right as soon as the gas pressure has been decreased.

The Hebron development is coming to the front with some good wells in the Big Injun sand and the Indications are that a big pool has been opened up there. Note of the wells drilled in so far have been of the gusher variety, but they are

that a big pool has been opened up there. Note of the wells drilled in so far have been of the gusher variety, but they are all good for from 75 to 100 barrels a day and are worth drilling for at the present price of the oleaginous fluid.

IMPORTANT OIL SUIT

Decided at Stenbenville-Other Sults will A special to the Intelligencer, from

Steubenville, says: Quite a number of suits growing out of failure to drill on farms leased by oil operators, will be farms leased by oil operators, will be brought shortly by the lessors who expect to recover as there was a verdict favorable to a lessor to-day. Joshua Moores brought suit to recover \$80 44 rental from Castner Bros, because the latter failed to drill a well on his farm or vicinity within six monthe, as the lease provided. The lessees did drill a well, as they claimed, within six months, on a farm one mile from Moore's and with but two farms intervening, and they claimed that the completion of this well fulfilled conditions. To back up their claim they placed oil operators on the stand who testified that where an operator leases a block of farms and drills on any one farm in the block, the condition to drill on or in the vicinity of, the farms is fulfilled. The lessor claimed that the well was not in the vicinity, but was one and one-half miles eway, and it was held that where it might be understood between oil men and while it might be a custom that drilling anywhere on a block of leases means in the vicinity of any of the farms in the vicinity of any of the farms in the vicinity of any of the farms in the look, unless specified, it could not prevail. The jury brought in a verdict for the feasor, thus determining that a mile and a half away on the same leases is not in the vicinity. Other farmsrs will now bring suit. brought shortly by the lessors who ex-

The Stenographers' Club.

The Stenographers' Club.

The Wheeling Stenographers Clubheld a meeting in its rooms in the Hersbuilding last night. Captain W. I. Mathews resigned his office as president and Louis E. Schrader was elected in his stead. F. Benner, ir., was elected first vice president, and Mas Sophie Scharf, second vice president. Plans for the winter's entertalament were laid out. Interesting papers were read on subjects of short-hand societies and on matters pertaining to stenographers. Vocal and instrumental music added enjoyment to the proceedings. The club added four new members to its roll, and wilf hold a class in dictation next Thursday evening. day evening.

Old People.

Old People.

Old people who require medicine to regulate the howels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whisky nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby adding mature in the performance of the functions. AMUSEMENTS.

The new sensational comedy drama The Brand of Cain," will be produced t the Grand next Monday, Tuesday and Wednesday by the original com-

at the Grand next Monday, Tuesday and Wednesday by the original company, carrying their own car of special scenery and giving the same production as in Chicago and St. Louis, where the play had a most successful run of four weeks, receiving the most flattering notices from the press in both clies. There is no Jarama on the stage more fully equipped from a scenic artistic or dramatic standpoint than "The Brand of Cain." It is a novelty in itself and absolutely new in every detail. It is a dramatic production, appealing to the heart and brain of all classes and is undoubtedly the masterpiece of Augustus Walford.

Professor Baldwin and Mrs. Baldwin, the "White Mahatmas," gave their pleasing and puzzling entertainments again last night before the largest audience of the week in the Opera House. The mind rending by Mrs. Baldwin, which concludes the performances, was just as puzzling as ever, and the peculiar questions and funny answers afforded much amusement. Mrs. Baldwin is evidently a good political prophet. She predicted Kentucky would go Republican on the first Tuesday of next month ard said George Wesley Atkinson was fated to be the next governor of West Virginia. There will be the usual performance to-night, and to-morrow night the week's engagement at the properties of the proportion of it which desires to see the Baldwins, will be given an opportunity to see the two political street demonstrations on that evening.

Al. G. Field's "Darkest America" onesed a three nights engagement at onesed at the content of the proposed and the content.

Al. G. Field's "Darkest America" opened a three nights engagement at the Grand last night before a large audience. The show is all that is claimed, and will no doubt do a good business at Manager Felher's popular amusement house. The various amusing features were received with much enthusiasm. enthusiasm.

Says the Indianapolis Journal: The new sparkling comedy, "My Uncle From New York," which appeared last night was the amusement treat of the season and is undoubtedly the best comedy seen here for a long time. "My, Uncle" is elevating, most amusing and artistic. It is a comedy in every sense of the word; no farce or horse play, but the genuine, pure element of comedy itself. The arrival of the unexpected uncle from New York along with all that necessarily follows creates the most amusing and laughable incidents ever witnessed. The company is far above the average. Harry Montague, as the rich, Jovial old uncle from New York, won instant favor and well merited the loud applause bestowed upon him. He is a capable actor and as a comedian has indeed few rivals. Sliss Duncan was very pleasing and attractive and by her rendition of a very trying part proved herself an actress of much ability.

This comedy will be at the Opera House next Tuesday and Wednesday, October 27 and 28.

W. V. U. TEAM

Suffers the Loss of Three of its Most Valuable Players.

The West Virginia University football team suffers a loss of three of its best players this week. Ely and Brailler have left the university, and Yost, the clever left tackle, has gone to Lafayette college team, for the rest of the senson. Yost was urged when in Wheeling by Lafayette and to-morrow he will be in the game against the University of Pennsylvania. The West Virginia University boys were to play P. A. C. in Pittsburgh to-morrow, but now it seems uncertain that they will now it seems uncertain that they will

Catarrh Cannot be Cured
with LOCAL APPLICATIONS, as
they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it
you must take internal remedies. Hall's
Catarrh Cure is taken internally, and
acts directly on the blood and mucous
surfaces. Hall's Catarrh Cure is not a
quack medicine. It was prescribed by
one of the best physicians in this country for years, and is a regular prescription. It is composed of the best thood
purifiers, acting directly on the mucous
surfaces. The perfect combination of
the two ingredients is what produces
such wonderful results in curing Catarrh. Send for testimonials.
